Leather & Plastic Re-Dye and repair

Our re-dye service can be done on site at your home or workplace or our premises. With this service we offer you repairs to your leather seats and colour restoration, small scuffs, small tears & scratches without having to replace the leather, this re-dye process can be executed on leather, vinyl & the plastic panels in your car including your dash board. This is a process that involves a lot of time and precision work ensuring that the end product matches the original finish and colour, Below are some of the re-dye projects we have completed in the past.
